HUNTINGTON'S SEEDS *of* PERENNIAL & BIENNIAL PLANTS

As varieties and prices of these items seldom change we will not send this to you each season. Subject to crop failure we will be able to fill any item offered as long as we are in business.

AQUILEGIA, Long Spurred—Mrs. Scott Elliott

RALPH E. HUNTINGTON
PAINESVILLE, OHIO, U. S. A.

This list may not reach you at planting time so we ask you to file it for future use.

To the Buyer

In presenting this list of seeds, my whole effort has been to place before you the best and widest possible list of really good, fresh, and true seeds. By offering them in this manner, I am able to price them as low as seeds of like quality can be handled.

ORDERING—IMPORTANT

The highest grade annual seeds offered by the best houses, come from very much the same sources, wherever you buy them, and comparatively near by, hence it is an easy matter to keep in touch with the crops and to avoid listing crop failures. On the other hand, very much so, the seeds in this list come from all over the world. It is absolutely impossible for us to learn of crop failures of many items until long after the printer has our catalogue finished. If the buyer, in placing an order, will name one or two second choice items it will be of great help to us, and will insure 100% delivery.

GERMINATION

I do not guarantee germination, either in frames or outside, but I do guarantee at least 90% in an approved test. So many causes may contribute to failure that a guarantee of germination is impossible. Condensed directions for growing are sent out with each order.

QUANTITIES

Except in new or very scarce items, each packet will contain from one to five hundred seeds, according to value per ounce. Trade packets will contain at least three times the quantities of the packets, and in most cases 1000 seeds. Many new and scarce items are bought by the thousand seeds instead of by weight. Some costing us as high as \$8 per 100, and these are priced accordingly.

**Jobbers or growers please write for ounce
or pound prices on your wants.**

** GOOD ROCK PLANTS*

The seeds offered in this list, such as are not gathered on the Painesville nurseries, come from all over the world. Crop information on most of these is impossible, hence I do not dare offer them in quantity. It often happens that we have many items in good quantity, which are only quoted in packets. Send in your planting lists for quotations.

* ASPERULA — <i>Odorata</i> (Sweet Woodruff) $\frac{1}{4}$ oz. 40c.....	.10	.25			
<i>Hexaphylla</i> . White, fine for cutting.....	.10	.25			
ASPHODELUS — <i>Creticus</i> . (<i>Asphodelene</i> <i>Laburnica</i>) Straw.....	.10	.25			
<i>Linurnicus</i> . Shorter spike than the type.....	.20	.40			
<i>Luteus</i> . Bright yellow.....	.10	.25			
ASTER —Mixed from a fine collection, $\frac{1}{4}$ oz. 50c.....	.10	.25			
<i>Nova Anglae Rosea</i> . Extra good pink.....	.10	.25			
Peggy Ballard. A great favorite in England. Rosy Mauve.....	.10	.25			
<i>Acris</i> . Well rounded little plant, 10-12" tall, simply covered with medium sized flowers of blue. Good rock plant.....	.10	.25			
<i>Alpinus</i> . Dwarf sorts mixed, $\frac{1}{4}$ oz. 50c.....	.10	.25			
<i>Amellus</i> . Taller sorts, $\frac{1}{4}$ oz. 50c.....	.10	.25			
<i>Townshendii</i> . Rosy Lilac, 2" flowers, 16" tall, easy and free. $\frac{1}{4}$ oz. \$1.00.....	.20	.50			
ASTRANTIA — <i>Major</i> . Pink.....	.10	.25			
* AUBRETIA —Easily grown Alpine trailers. Early and free. Beautiful in the rock garden.					
<i>Gracea</i> . Very dwarf blue. $\frac{1}{4}$ oz. 50c.....	.10	.25			
<i>Hendersonii</i> . Largest, reddish blue, $\frac{1}{4}$ oz. 80c.....	.10	.25			
<i>Eyerlet</i> . Large, violet.....	.15	.25			
<i>Leichtlini</i> . Carmine, $\frac{1}{4}$ oz. 80c.....	.10	.25			
<i>Hybrida</i> . All colors, $\frac{1}{4}$ oz. 60c.....	.10	.25			
Selected from extra dwarf, close growing varieties. Mixed colors. Very choice. $\frac{1}{4}$ oz. \$2.00.....	.25	.70			
* BELLIS PERENNIS —(English Daisy)					
Double white. $\frac{1}{4}$ oz. 50c.....	.10	.25			
Longfellow. Double rose, $\frac{1}{4}$ oz. 50c.....	.10	.25			
Mixed. $\frac{1}{4}$ oz. 40c.....	.10	.25			
<i>Monstrosa</i> . White, Rose, or Red, (Etna). $\frac{1}{4}$ oz. 85c.....	.20	.50			
BETONICA —(<i>Betony</i>) <i>Grandiflora Superba</i> . Long stems of lilac rose flowers. The best <i>Betonica</i>20	.50			
BAPTISIA — <i>Australis</i> . (False indigo) Dark blue, $\frac{1}{4}$ oz. 40c.....	.10	.25			
BOCCONIA — <i>Cordata</i> . (Plume Poppy) Tall, cream. $\frac{1}{4}$ oz. 25c.....	.10	.25			
BOLTONIA — <i>Asteroides</i> . (False Chamomile) White.....	.10	.25			
<i>Latisquamae</i> . Pale pink.....	.10	.25			
BUDDLEYEA —(Butterfly Bush) <i>Magnifica</i> . Strong lilac. Heavy grower. Long spikes of lilac scented flowers in July-Aug. $\frac{1}{4}$ oz. 75c.....	.10	.25			
<i>Farquharii</i> . Neater, more upright growth and harder. Flower spike more compact. Light pink. $\frac{1}{4}$ oz. \$1.50.....	.20	.50			
BUPHTHALMUM — <i>Cordifolium</i> . Ox Eye Daisy. Bright yellow.....	.20	.50			
CALAMINTHA — <i>Alpina</i> . (Alpine Mint) Dwarf blue.....	.20	.50			
CALLA —Mrs. Roosevelt.....	.10	.25			
CALLIRHOE — <i>Involucrata</i> . Crimson.....	.15	.35			
CAMPANULA — <i>Calycanthemata</i> . (Cup and Saucer Canterbury Bells).....					
Separate Colors. White, Rose Blue, Striped or Mixed. $\frac{1}{4}$ oz. 75c.....	.15	.35			
Medium. (Single Canterbury Bells). The best grower. Separate colors, white, rose, blue, striped or mixed. $\frac{1}{4}$ oz. 25c.....	.10	.25			
Medium Double. Closely built double flowers. White, Blue, Rose, Striped, or Mixed. $\frac{1}{4}$ oz. 25c.....	.05	.15			
Medium Dean's Hybrids. All colors, Double, Single, and Cup and Saucers, Delicate and deep shades. $\frac{1}{4}$ oz. 50c.....	.10	.25			
<i>Bononiensis</i> . Small blue flowers, very free. $\frac{1}{4}$ oz. 40c.....	.20	.40			
* <i>Carpatia</i> . (Carpathian Hare Bell) Blue or white. $\frac{1}{4}$ oz. 40c.....	.10	.25			
* <i>Glomerata</i> . Dwarf, dark blue.....	.10	.25			
<i>Longistyla</i> . 3 ft., bluish violet.....	.10	.25			
<i>Macrantha</i> . Mixed blue and white, like <i>Phlox</i>10	.25			
<i>Michauxoides</i> . Porcelain blue.....	.15	.35			
<i>Mirabilis</i> . Pyramidal, very large flowers, light blue, extra.....	.25	.65			
<i>Nobilis</i> . Purple.....	.15	.35			
<i>Primulaefolia</i> . (Primula Leaved Bell Flower) Very tall. lilac.....	.15	.35			
			CAMPANULA —Continued		
			<i>Persicifolia</i> . (Peach Bells) The best perennial <i>Campanula</i> , white, blue or mixed. $\frac{1}{4}$ oz. 50c.....	.15	.35
			<i>Persicifolia FIPi Pfizerii</i> . Double form of <i>Persicifolia</i> , blue, white or mixed.....	.20	.50
			* <i>Rotundifolia</i> . (Blue Bells of Scotland).....	.15	.35
			<i>Pyramidalis</i> . (Chimney Bell Flower) White, blue or mixed, $\frac{1}{4}$ oz. 50c.....	.10	.25
			<i>Pyramidalis Compacta</i> . Semi-dwarf mixed.....	.15	.35
			<i>Lactiflora</i> . Light blue.....	.10	.25
			* <i>Turbinata</i> . Like <i>Carpatia</i> , taller, blue, white, or mixed. $\frac{1}{4}$ oz. 60c.....	.10	.25
			<i>Trachelium</i> . (C. <i>Urticaefolia</i>) 2 ft. Violet blue.....	.15	.35
			<i>Alliariaefolia</i> . White, 18-24".....	.15	.35
			<i>Latifolia</i> . Blue, White, or mixed, 3-4 ft.....	.15	.35
			<i>Rhomboidalis</i> . Blue, White, or Mixed 1-2 ft.....	.10	.25
			<i>Spicata</i> . Blue.....	.10	.25
			CASSIA — <i>Marylandalca</i> . Tall yellow, July Aug.....	.10	.25
			CARLINA — <i>Acaulis</i> . An attractive dwarf for dry, hot situations. Ornamental foliage and silvery thistle-like flower heads. Ht. 6 in. Good rock plant.....	.25	.70

Carnation

Note, Carnations Vienna Market and Chabaud's are perennial, but give best results treated as Biennial. The Marguerites bloom in four months from seeds, and are best treated as annuals.

CARNATION—Malmalson.

This is not scented. May be used as annual or biennial. Separate colors, White, Rose, Scarlet, Violet, Yellow.
25 seeds 15c.; 100 seeds 40c. Mixed, pkt. 10c
Tr. pkt. 25c. $\frac{1}{4}$ oz. 60c.

Picotees. Finely striped and variegated in all shades and combinations..... .20 | .50 || **Vienna Market**. Scented. Fine for cutting. Sow in July, August, blooms next season. Separate colors, red, rose, white or mixed. $\frac{1}{4}$ oz. 50c..... | .15 | .35 |
Chabaud's French Market. Taller than Vienna, a fine scented strain. Blooms same as Vienna. Separate colors, white, red, yellow grounds, rose or mixed. $\frac{1}{4}$ oz. 50c.....	.15	.35
Striped. Double flowers, all striped.....	.15	.25
Etnicefant. Bright Scarlet. $\frac{1}{4}$ oz. \$1.25.....	.20	.60
Deep Rose. $\frac{1}{4}$ oz. \$1.25.....	.20	.80
Legion of Honor. Salmon Shades. $\frac{1}{4}$ oz. \$2.00.....	.25	.70
Marguerite. Smaller than Chabaud's. Blooms in August and September from spring sown seeds. Finely scented. Good stem. Separate colors, white, rose, crimson, yellow grounds, or mixed. $\frac{1}{4}$ oz. 50c.....	.15	.35
Dianthus Alwoodii. I list this under above head for it seems to me that this is the proper place for it. Really a hardy perennial carnation, and the only one I know of. Extra.....	.40	
All above contain a good percentage of doubles.		
CAMASSIA—(Wild Hyacinth) Mixed. A bulbous plant, native in the flat lands of the northern central states. Hyacinth-like flowers on spikes about 18" tall. $\frac{1}{4}$ oz. \$1.00.....	.15	.35
CARDUUS—Kernerli. (Kerner's Thistle).....	.10	.25
CATANANCHE—Good everlasting for cutting. July, August, 10-12". $\frac{1}{4}$ oz. 40c. Blue, white or mixed.....	.10	.25
CENTAUREA—*Macrocephala*. Like tufts on terminal stems. Yellow, 5 ft. $\frac{1}{4}$ oz. 50c. Montana. (Mountain Centaury) One of the most useful and handsome of perennials for the border. June, July, Aug. 12-18". Blue, white or mixed.....	.10	.25
Dealbata. Rosy pink, 20-24".....	.10	.25
CEPHALARIA—*Tartarica*. Fine for background of the hardy border. Large flat heads of cream yellow. 6 ft. July, Aug. $\frac{1}{4}$ oz. 50c.....	.15	.35
***CERASTIUM**—*Tomentosum*. (Snow in Summer) White, silver leaf creeper, very hardy. $\frac{1}{4}$ oz. 65c.....	.10	.25

CHAMAEPUCE—Diantha. (Rosette Thistle) $\frac{1}{2}$ oz. 40c.....			DELPHINIUM—Continued		
	.10	.25	The very highest grade delphiniums, largest singles and best doubles, give a very light seed, of weak germination and comparatively short keeping quality. Flowers from the strains offered below will be wonderful in quality, and plants will be large and strong. I do not recommend planting the seeds outside except in a most sheltered situation. Also do not attempt them after Sept. first. After that time we will hold orders for fresh stock, which should be harvested soon. The named sorts will not come true, but colors and types will predominate.		
CHIERANTHUS—Allioni. Hardy Wall Flower, yellow, free. $\frac{1}{4}$ oz. 30c.....	.10	.25	I have tried, and seen on other places, about every strain of delphinium offered on earth. I have seen none better than these offered below, but I have seen many not nearly as good, though held at higher prices.		
A. Semperflorens. Perpetual flowering form of above.....	.15	.35	Admiral Jellicoe. Pale blue, inner petals rose. Large eye striped black and rose. Semi-double.....		.25 .70
Linifolius. Alpine wallflower, Mauve.....	.15		Britain's Pride. Sky Blue and Lavender, with white center. Semi-double.....		.25 .70
GODONOPSIS—Ovata. Light blue, not reliably hardy.....	.10	.35	Glory. Lavender pink. The nearest lavender.....		.20 .50
COLCHICUM—Autumnale. Fall crocus... Speciosum Magnificum. The finest of the colchicums.....	.15	.35	His Excellency. Brilliant blue, red inner petals. Semi-double. $\frac{1}{4}$ oz. \$1.25.....		.25 .70
CONVALLARIA—Majalis. Lily of the Valley.....	.15	.35	Jessie Harrison. Light blue, Light rose inner petals. Small white eye. Double. $\frac{1}{4}$ oz. \$1.25.....		.25 .70
*CORONILLA—Varia. (Crown Vetch) Pink and white.....	.10	.25	Lovely. Milky lavender and sky blue. Large white eye. Double. $\frac{1}{4}$ oz. \$1.50.....		.35 1.00
CORYDALIS—Thalictrifolia. Yellow and red, persistent bloomer.....	.15	.35	Macaulay. Sky blue, touched with pink. White eye.....		.25 .70
*CRUCIANELLA—Stylosa. (Crosswort) Bright pink, 6".....	.10	.25	Amos Perry. Rosy mauve, touched sky blue, outer petals touched sky blue. Semi double. $\frac{1}{4}$ oz. \$2.00, $\frac{1}{2}$ oz. \$3.75.....		.20 .50
*CHRYSANTHEMUM—Maximum. (Shasta Daisy) Alaska.....	.10	.25	Queen Mary. Lavender and blue. White eye. Semi double. $\frac{1}{4}$ oz. \$1.25, $\frac{1}{2}$ oz. \$2.25.....		.25 .70
Mrs. J. Tersteeg. A fine, tall, large flowering variety. Double row of petals. $\frac{1}{4}$ oz. 50c.....	.10	.25	King of Delphiniums. Gentian blue and plum. Large white eye. Semi double. A giant. $\frac{1}{4}$ oz. \$2.00, $\frac{1}{2}$ oz. \$3.75.....		.25 .70
Covent Garden Market. Hardest, $\frac{1}{4}$ oz. 40c.....	.10	.25	Finest English doubles in light blue shades. $\frac{1}{4}$ oz. \$2.00, $\frac{1}{2}$ oz. \$3.75. Worth the price.....		.25 .70
Triumph. A large German variety. $\frac{1}{4}$ oz. 40c.....	.10	.25	Finest English doubles in dark blue shades. $\frac{1}{4}$ oz. \$2.00, $\frac{1}{2}$ oz. \$3.75. Same strain as above.....		.25 .70
Lacinated. Ends of petals split and curled, giving the flower a ragged appearance. $\frac{1}{4}$ oz. 75c.....	.15	.35	Finest English Doubles. All colors $\frac{1}{4}$ oz. \$1.75 $\frac{1}{2}$ oz. \$3.00.....		.25 .70
Californica. Large flowers, white with a slight touch of yellow. $\frac{1}{4}$ oz. 50c.....	.10	.25	Wrexham Hybrids. Immense flowers, singles and doubles in fine colors. A grand mixture. $\frac{1}{4}$ oz. \$2.50.....		.25 .65
Mrs. C. Lothian Bell. The best example of English selection of the slightly lacinated type. Mrs. J. Tersteeg is the best Holland selection in this line. Both are good. $\frac{1}{4}$ oz. 50c.....	.10	.25	Hollyhock Strain. A new English production. Immense terminal heads of single and double flowers with no branches prevail in this mixture. $\frac{1}{4}$ oz. \$2.....		.20 .50
Leucanthemum Praecox "Jewel". Early flowering form with smaller flowers. $\frac{1}{4}$ oz. 60c.....	.15	.35	Nudicaule. Dwarf scarlet, very slow to germinate. Scarlet. $\frac{1}{4}$ oz. 75c.....		.15 .40
The Shasta Daisies will not prove 100% true from seeds, but the best selections will show a fine proportion of worth while plants			Zalil. (Sulphureum) A weak growing yellow sort. Hard to germinate.....		.25 .70
CHRYSANTHEMUM—Indicum. Hardy Chinese varieties in mixture.....	.15	.35	*Chinensis. (Grandiflorum) Fine for cutting. Stuff little plants, about 18". Blooms first season from seeds. Separate, white, light blue dark blue $\frac{1}{4}$ oz. 35c.....		.10 .25
Japonicum. Hardy Japanese varieties, mixed.....	.15	.35	DODECATEON—Media. American Cowslip (Shooting Star). Lilac to Purple.....		.15 .35
Japonicum, Praecox. Early flowering form of Japanese sorts, blooms first season from early sowings.....	.25	.75	DORONICUM—Caucasicum. Sunflower like yellow flowers on terminal stems in early spring. Very hard to handle. 25 seeds 15c, 75 seeds 40c.....		
CIMICIFUGIA—Racemosa. Tall growing native. Graceful spikes of white flowers. This will do well in full shade.....	.15	.40	DICTAMNUS—(Gas Plant) Red, white or mixed. Oz. \$4 00.....		.10 .25
GIRSIUM—Velenowski. (Velenowski's Ornamental Thistle) White, changing to violet. $\frac{1}{4}$ oz. 50c.....	.10	.25			
COREOPSIS—Lanceolata. (Tick Seed) Clear yellow. Oz. 45c.....	.05	.15			
California Sunbeams. Form of above with brown center. $\frac{1}{4}$ oz. 35c.....	.10	.25			
*Verticillata. A fine hardy yellow border plant, persistent bloomer, with Nigella like foliage.....	.20	.40			
DELPHINIUM—(Hardy Larkspur)					
Belladonna. Pale, sky blue, everblooming. Oz. \$3.00. $\frac{1}{4}$ lb. \$8.00.....	.10	.35			
Bellamosum. Dark blue form of above. Oz. \$3.00. $\frac{1}{4}$ lb. \$8.00.....	.15	.35			
Formosum. This is taller and runs more even in color than Bellamosum. In soils and locations not subject to mildew it is far superior. True. oz. \$4.....	.15	.40			
Excelsior Mixed. A Holland grown mixture containing a good selection of both single and double. Oz. \$2.00. $\frac{1}{4}$ lb. \$7.00	.15	.35

PRIMULA—Continued					
Veitchii. Mostly purple. A fine primula.	.25	.60	*SEMPERVIVUM—(House Leek). Dull greenish red rosettes.....	.15	.35
Veris Gigantea. A fine strain of the best known primrose, easiest grower. Mixed ¼ oz. \$1.50.....	.10	.25	SENICIO—Cliverrum. Heavy growing peren- nial with heads of yellow flowers, late bloomer. Ornamental.....	.10	.25
Veris. n separate colors, crimson, orange or white. ¼ oz. \$2.00, ¼ oz. \$1.25.....	.15	.35	Subcrenatus. Lower growing, larger flower.....	.10	.25
Veris. Blue shades.....	.30	.80	Veitchianus. Fine for specimen planting. Wide spreading tuft of large cordate leaves. Heavy stems reach three ft. with yellow flowers along the upper two feet. Very easy and hardy.....	.25	.65
PYRETHRUM—(Feverfew) Roseum Hy- bridum. Good color range, carefully se- lected on our own grounds. Not 80 per cent whites as usually offered. ¼ oz. 35c	.10	.25	*SHAMROCK—(The True Shamrock of Ire- land.) ¼ oz. 75c.....	.15	.35
Atrosanguineum. Red shades in mixture. ¼ oz. 75c.....	.15	.35	SIDALCEA—Candida. A tall white flowering plant. Fine for waterside. Sow in fall.....	.10	.25
Carneum. Pink shades in mixture. ¼ oz. 75c.....	.15	.35	Rose Queen. Pretty rose colored form of above.....	.10	.25
James Kelway. Giant flowered bright ver- milion. Larger plant, larger seed. ¼ oz. 90c.....	.20	.50	Ruby Red.....	15	3
Best Doubles in Mixture. Taken from flowers unequalled. Round as a ball, fine color range. Should show 80 per cent double.....	.25	.60	New Hybrids. Ranging from deep rose to white.....	.15	.40
Pyrethrum Roseum will not come true from seeds, but type and color will greatly predominate.			SPIREA—Filipendula. Finely cut foliage, white heads on 2 ft. stems. Very orna- mental. ¼ oz. 35c.....	.10	.25
Single mixtures as we have had them from the best sources have shown largely of whites. The seed offered above is from our own plants, from which most of the whites were removed.			Ulmara. (Queen of the Meadows). Coarser leaf, white.....	.10	.25
Note, the doubles will not show over 60% double. Do not make selection until the second season of bloom. First bloom is not typical, and will show upward of 95% single.			Astilbe. Mixed, taken from such items as Gladstone, Queen Alexandra, etc., the forcing types.....	.15	.35
RANUNCULUS—Asiaticus. The best of the Asiatic or bulbous Ranunculus.....	.15	.35	Aruncus. A hybrid resembling Astilbe. Hardier, heavier grower. ¼ oz. \$1.00....	.10	.25
* RAMONDIA—Pyrenaica. Often called Al- pine Violet. (Rosette Mullein) requires protection. Fine pot plant for the house Very hard to grow.....	.15	.35	SILENE—(Catch Fly) Grandiflora. Crim- son scarlet.....	.10	.25
ROMNEYA—Coulterii. (Poppy Mallow) Large white poppy-like flowers.....	.10	.25	Alba. Same as above, white flowering. ¼ oz. 40c.....	.10	.25
RUDBECKIA—(Cone Flower) Fulgida. Brilliant Rudbeckia, orange yellow. ¼ oz. 45c.....	.10	.25	Orientalis Compacta. Compact, deep rose Orientalis. Red.....	.10	.25
Hybrida Grandiflora. Large flowered Hy- brid Rudbeckia, golden orange. ¼ oz. 45c	.10	.25	Saxifraga. Long flowering, white.....	.10	.25
* Newmanii. Orange yellow, black center. ¼ oz. 35c.....	.10	.25	SOLIDAGO—Canadensis. (American Golden Rod).....	.10	.25
Purpurea. (Giant Purple Cone Flower). ¼ oz. 40c.....	.10	.25	* STACHYS—Lanata (Rabbit's Ear). Thick, woolly leaves, pale blue flowers. Dwarf. ¼ oz. 50c.....	.10	.25
* SAPONARIA—Ocyroides Splendens. Fine pink creeper.....	.10	.25	Alpina. Deep rose, dwarf.....	.15	.35
* Ocyroides Alba. White form of above....	.10	.25	* STATICE—(Sea Lavender) Latifolia. Most used for winter flowers, or for summer cutting with other items. ¼ oz. 50c. Clean seeds, ¼ oz. \$1.25.....	.10	.25
Officinalis. (The Bouncing Bet. of our roadsides).....	.10	.25	Eximica. Lilac pink.....	.15	.35
* SCABIOSA—Caucasica. Pale blue, per- ennial. ¼ oz. \$1.00, 1 oz. \$3.00.....	.10	.25	* Tartarica. Larger than Latifolia, coarser. ¼ oz. 30c.....	.10	.25
Alba. ¼ oz. \$1.00.....	.20	.50	STOKESIA—(Stoke's Aster). White, blue, or mixed. ¼ oz. 50c.....	.10	.25
Japonica. Pale blue, biennial. ¼ oz. 75c.	.10	.25	SISYRINCHUM—(Blue eyed grass) Bermu- dianum. Grassy foliage, blue flowers in spring and fall.....	.10	.25
* SALVIA—Argentea. White flowers, silvery, woolly foliage. ¼ oz. 35c. 2 ft.....	.10	.25	THALICTRUM—Adiantifolium. Adiantum- like foliage, white flowers. ¼ oz. \$1.00..	.15	.35
Farinacea. Pale blue. Blooms first season if sown early. Not reliably hardy. Pro- tect. ¼ oz. 50c.....	.10	.25	Aquilegiafolium. (Tufted or Feathered Columbine) Mixed. ¼ oz. 75c.....	.10	.25
Azurea Grandiflora. Large flowered, azure 5 ft. Fine for backgrounds. ¼ oz. 60c....	.10	.25	Aquilegiafolium Purpureum. Dark rose Cornutum. Panicles of creamy white fl- owers in June and July. Good for wet places.	.20	.50
Globosa. Very free and easy white flow- ered form. Silver white foliage. 3 ft. ¼ oz. 30c.....	.10	.25	Glaucum. With yellow flowers.....	.10	.25
* Patens. Blue. Generally called "the only real blue in the floral kingdom." ¼ oz. \$1.00.....	.25	.60	Dipterocarpum. This is one of the hand- somest perennials in this entire list. Given a good part shade and fairly heavy soil, it is perfectly hardy. Buds resemble pearls, opening to delicate lavender flowers, with yellow centers. ¼ oz. \$1.25.....	.20	.50
Pratensis. Blue, often sold as Patens....	.10	.25	TRITOMA (Red Hot Poker) Express. A mixture of early sorts. ¼ oz. 50c.....	.10	.25
Rings. Large reddish purple.....	.15	.35	May Flowering Hybrids. ¼ oz. 50c.....	.20	.50
Turkestanica. Alba, white flowers. ¼ oz. 35c.....	.10	.25	Red Seedlings—Taken from all Reds.....	.20	.50
Rubra. Free, red flowering. ¼ oz. 35c. Both this and above are very ornamental. Flower is not significant, but the leaf bracts at heads of the plant are very striking. Not used enough. Easy and free Salvia. From the Vatican Gardens. A type of Turkestanica but much more showy. 3 ft. Branching heads of flowers in white and lavender. Easy.....	.10	.25	Tuckii. (May Queen). ¼ oz. 50c.....	.10	.25
	.25	.70	Uvaria Grandiflora. Tallest and latest. ¼ oz. 50c.....	.10	.25
* SAXIFRAGA—Megasea Hybrids. Large flowered mixed.....	.20	.50	Tritomas do not come true from seeds, but the variety named will predominate.		
Cordifolia. Larger leaf, flowers rose. The hardest saxifrage.....	.25	.60	TROLLIUS—Caucasicus. (Orange Globe Flower) Orange globes. ¼ oz. \$1.00....	.15	.35
			Ledebouri. This is one of the best of Trol- lius. Tallest and largest flowering, latest to bloom.....	.20	.50
			Europeus. (European Globe Flower) Yellow. ¼ oz. 50c.....	.10	.25
			TULIP. Taken from best Darwin types, mixed..	.10	.25
			TUNICA—Saxifraga. Finely cut leaved dwarf border. Small pink flowers, easy, free. ¼ oz. 25c.....	.10	.25

VALERIANA —(Valerian). White, rose-red, or mixed. $\frac{1}{4}$ oz. 40c.....	.10	.25
Officinalis . The best Valerian. Has never seeded with us. Imported seed. White. $\frac{1}{4}$ oz. 60c.....	.15	.35
VERBASCUM —(Moth Mullein) Giganteum . Silver white foliage, yellow flowers, tall. $\frac{1}{4}$ oz. 40c.....	.10	.25
Libani . Yellow, $\frac{1}{4}$ oz. 25c.....	.10	.25
White. $\frac{1}{4}$ oz. 50c.....	.15	.35
Miss Willmott . Large flowered, various shades of yellow, fine. $\frac{1}{4}$ oz. 25c.....	.10	.25
VERONICA —(Speedwell) Backhofenl . Light blue.....	.10	.25
Alpine . Dwarf variety in mixed colors.....	.15	.40
Candida . Silvery leaves. Light blue. $\frac{1}{4}$ oz. 75c.....	.10	.25
Incana Nana . Dwarf, pale blue, $\frac{1}{4}$ oz. 50c.....	.10	.25
Longifolia . Compact blue. $\frac{1}{4}$ oz. 75c.....	.10	.25
Prostrata . (Hungarian Speedwell) Dwarf.....	.10	.25
True Blue . Of Spicata type, everblooming, slender stems of royal blue, new.....	.25	.70
Spicata . Mixed Rose, White, Blue, $\frac{1}{4}$ oz. 40c.....	.10	.25
Teucurium . Royal Blue. $\frac{1}{4}$ oz. 60c.....	.15	.35
*VERBENA — Aubletia Grandiflora . (Large flowered Rose Vervain). American native, Colorado, New Mexico, Texas, 12-18", rose purple, tender in the north, requires protection. "It is to be regretted that this charming species, so well thought of in Europe, should be neglected in its native America." (Mr. Cowen, in Bailey's Encyclopedia of Horticulture).....	.15	.35
*Venosa . Violet, veined. 1 ft. South American native. Like above, requires protection in the north. Root is bulbous.....	.15	.25
*VIOLA —(Tufted Violet) Alba10	.25
Admiration . Deep blue. $\frac{1}{4}$ oz. 60c.....	.10	.25
Jersey Gem . New large flowering dark blue. Just now in great demand.....	.30	
Perfecta Cream . $\frac{1}{4}$ oz. 60c.....	.10	.25
Purple King . Scotch Border type, large. Finest large purple. $\frac{1}{4}$ oz. 75c.....	.10	.25
Primrose Dame . $\frac{1}{4}$ oz. 75c.....	.10	.25
Papilio . Blue and White. $\frac{1}{4}$ oz. 60c.....	.10	.25
Black Prince . $\frac{1}{4}$ oz. 60c.....	.10	.25
Mauve Queen . $\frac{1}{4}$ oz. 60c.....	.10	.25
Rose Queen . 40 per cent true. $\frac{1}{4}$ oz. \$1.00.....	.20	.50
Thuringia . Blue with White Eye. $\frac{1}{4}$ oz. 60c.....	.10	.25
Scotch Border . Like pansies and almost as large, good assortment of shades. In bloom the entire summer. $\frac{1}{4}$ oz. 75c.....	.10	.25
Scotch Border . Taken from our magnificent collection of named sorts.....	.20	.50
*VIOLET — Prince of Wales . Deep blue.....	.15	.35
WALLFLOWER —Single mixed. $\frac{1}{4}$ oz. 35c.....	.10	.25
Double Mixed . $\frac{1}{4}$ oz. \$1.00.....	.20	.50

Footings - - - - -

Ornamental Grasses

ANDROPOGON — Argenteus . Silver white beard grass. Fine for drying.....	.15	.35
ARUNDO — Donax . (Great Reed) The tallest grass. Requires protection.....	.15	.35
BROMUS — Unioloides , Fendulosa . Pretty.....	.10	.25
ELYMUS — Giganteus . (Giant Bunch Grass).....	.10	.25
ERIANTHUS — Ravennae . (Ravenna Sugar Grass) Very hardy, tall.....	.10	.25
EULALIA — Japonica . (Japanese Eulalia) One of the most used grasses. Green, with white mid-rib.....	.10	.25
*FESTUCA — Glaucia . (Alpine Bunch Grass) Neat little tufts of glaucous green.....	.10	.25
*Alpina . Like above but more on the bluish shade.....	.10	.25
Viridia . (Green Fescue).....	.10	.25
KOELARIA — Setacea . For edging or border.....	.10	.25
LISIAGROSTIS — Argenta . Fine for cutting, green or dry.....	.10	.25
MELICA — Altitissima . (Tall Pearl Grass).....	.10	.25
*PANICUM — Virgatum . (Twiggy Panic Grass) Fine for winter bouquets.....	.10	.25
PENNISETUM — Ruppellanum . A fine "drooping" border for tall beds or borders. Much used in parks and public grounds. Not hardy.....	.10	.25
Macrourum . (Long Tailed Pennisetum) This variety is hardy.....	.10	.25
STELLARIA — Graminea Aurea . Not strictly a grass, but with yellow, grass-like foliage. White flowers. Fine rock plant.....	.10	.25
STIPA — Pennata . (Feather Grass).....	.10	.25
UNIOLA — Latifolia . Large seed heads, pretty.....	.10	.25

Vines

ASPARAGUS — Acutifolius . Recommended for green for cutting. Requires protection. $\frac{1}{4}$ oz. 35c.....	.10	.25
ADLUMIA — Cirrhusa . (Allegheny Vine) Useful climber, with finely cut leaves. Flower tube shape, flesh color.....	.10	.25
ARISTOLOCHIA —(Dutchman's Pipe).....	.10	.25
AMPELOPSIS — Veitchii (Boston Ivy).....	.10	.25
BIGNONIA — Radicans . (Trumpet Creeper).....	.10	.25
CLEMATIS —Much used hardy climbers, very ornamental.....		
Integrifolia . Dark blue.....	.10	.25
Paniculata . White, foam like.....	.10	.25
Grandiflora Mixed. A mixture of the large flowered named sorts.....	.20	.50
HEDERA — Anglica . (English Ivy). $\frac{1}{4}$ oz. 50c.....	.10	.25
PUERARIA — Thunbergiana . (Kudzu Vine).....	.10	.25
WISTARIA — Magnifica . Pea shaped lavender flowers.....	.10	.25
Vine seeds should be stratified, or planted in August to come the next spring. We do not carry seeds of Ornamentals, Trees or Evergreens in stock but will be glad to procure any varieties wanted on request.		

Footings - - - - -

Annuals for Fall Sowing

It is not generally known that many of our best and prettiest annuals may be sown in the fall, and that some of them are even better if sown late. Among these are Alyssum, Antirrhinum, Calendula, Calliopsis, Candytuft, Centaureas, Cyanea and Imperialis, Clarkia, Cosmos, Dianthus, Escholtzia, Euphorbia, Godetia, Gypsophila, Hunnemannia, Kochia, Larkspur, Marvel of Peru, Didiscus, Linum, Lupinus, Nemophila, Nicotiana, Nigella, Petunia (bedding vars), Phlox Drummondii, Poppy, Schizanthus, Verbena. Sweet Peas may also be sown in fall, but personal experience here has shown that our frigid Ohio springs are rather hard on the

seedlings. All the above will be found in splendid variety in our list of annuals.

Plants from fall sown seeds are hardier, with better root system, and can be transplanted in the cool, wet weather much easier than those from the spring sowings. They will bloom earlier, and blooming season can be greatly lengthened if both fall and spring sowings are made.

Notice—Care should be taken not to sow too early, else the seeds will germinate and seedlings will winter kill. Early November is the best time in this section.

NOTICE—Instead of writing out long lists, items may be checked and footed and the catalog returned to us. A new one will be sent with seeds.

CONCERNING PERENNIAL SEEDS AND A FEW OTHERS

Poor germination of seeds makes a fine chance to lay something up against the long suffering seedsman. I think, from years of experience with him, that the average seedsman is doing his level best to get you something that will produce results, and to give you a dollar for the dollar you spend with him. Barring a few scarce perennial seeds, I doubt if there are any seeds held over for one year. Failure may result from so many causes that even our expert growers are not likely to lay failure to old seeds on a first trial. Many items either must be fall planted, or are better planted at that time. These are, and have been for many years, a source of complaint, and of dark suspicion that the seedsman is sending out antiques. Among these are Adonis, Aetheopappus, Anthericum, Apocynum, Asperula, Cassia, Colchicum, Convallaria, Cirsium, Dicentra, Dictamnus, Ferula, Echinops, Gunnera, Hedysarium, Heliborus, Heracleum, Hypericum, Liatris, Morina, Oenothera (Missouriensis), Pardonthus, Peony, Phlox, Sidalcea, Spirea, Trollius, about all vine and shrub seeds. Above items, if planted in frames in fall, or if planted outside, and given some light covering to prevent heaving, will at once remove all suspicion as to any advanced age.

Then there's the really fine seeds, many of which should not be covered at all. Heuchera, Lobelia, Leontopodium, Gnaphalium, Erinus, Androsace and Giant Petunia, and other fine annuals, either should be covered very lightly, or else not covered at all.

Each spring we plant about two acres of perennial seeds, as time and weather will allow, from about April first to May fifteenth. Such large items as Hollyhock, Mallow, Centaurea, Gaillardia, Coreopsis, and like, invariably, barring accidents, give us a good stand, but the finer and more uncertain Campanula, Digitalis, Aquilegia (note that I offer these in two sections), Agrostemma, Double and finer Hybrid Delphiniums (Belladonna and Bellamosa are sure fire outside) Lychnis, and other medium fine seeds often fail, or after germinating meet up with weather conditions that put them out of the running. We expect little from these, however, and make all preparations to handle them in frames. When we do get a stand of them outside it saves much labor and time, so we always try them outside first.

When the grower is not able to be constantly with the seedlings, the ideal summer cover for the frames

is common cotton cloth, next best is lath frames, spacing lath about $\frac{1}{2}$ inch apart. We also use glass, covered well with a paint made from white lead thinned with gasoline. This shades during hot weather and is mostly washed off by fall.

Prepare all seed beds, either frames or outside, by thorough plowing or spading, and raking, then for fine seeds level the soil and firm it lightly, scatter the seeds thinly, first seeing that the planting space is level, so that the seeds will not wash to one corner of the little block when watering. Then screen soil over the seeds to the depth of the size of the seeds, or so that they are just covered from sight. Water lightly with a fine sprinkler and await results. Do not allow the soil to bake.

DON'T—Plant seeds deeper than the size of the seeds,

Plant fine seeds in full sun in hot weather (Coarse seeds will do for you about as would lettuce, carrot, beet, or like items).

Plant seedlings out in the fall. Let them stand in seed rows or frame till spring, with light mulch.

Water too much, or with too heavy force. This breaks the tender little plants, and causes damping.

Use too much fertilizer on the little seedlings. Let them get large enough to "eat."

You will never get germination from poor seeds, but you will often get poor germination from perfectly good seeds, at least we do. The trouble lies almost invariably with something done wrong, too heavy, too light, covering; too much, too little water; wrong soil; too much, too little air. Use your plant or seed sense, study your conditions and you will be richly rewarded for a little time and less money spent in the most fascinating branch of gardening.

I will gladly help solve your planting problems, but please remember that you are one of many, and that I'm busy. Don't write until you know you cannot get results yourself.

Respectfully,

R. E. Huntington.
